SHELDON JACKSON SCHOOL. First. Owing to confusion of accounts growing out of the two changes made in the administration of the work at Sitka, about $2,500 of the current expense appropriation has been expended for construction, in connection with the demolition of the old buildings. Second. Of the amount expended for coal $1,000 should be charged against the appropriation for the next fiscal year. These two contingencies make it necessary for the Office to recommend an additional appropriation upon the current expense account of this school of $3,500.

MENAUL SCHOOL - L/Ross - 1/31/12 - showing need of two new buildings. It was the judgment of the Conference that, in view of the effort already being made by the Woman's Board to raise the necessary funds for the needed development at Wasatch, we could not consider this requisition at this time.

Special Conference held Feb. 15, '12, 2:45 P.M.

Present: Miss Fraser, Miss Fish, Mrs. Gildersleeve, Miss Petrie, Mr. Allaben.

Mr. Allaben presented the following general plan for Field Supervision.

General Plan for Field Supervision.

I. Two Field Superintendents - salary $2,500 - Office -$600.

	Headquarters
1. Mountain Field	Asheville
2. Western Field	Albuquerque or Santa Fe

II. Two District Superintendents - Salary $1,800.

1. Cuba - Head of Guines Schools and Supt. of all other work.
2. Porto Rico -Head of Mayaguez School & Supt. of all other work.

III. Independent Stations

1. Good Will
2. Wolf Point
3. Stations in California & Washington
4. Sitka

Duties.

1. To conduct all local correspondence, adjusting all questions which do not require action on the part of the Board or the Superintendent of Schools.

2. To make regular visits to all schools and stations.

3. To exercise constructive supervision(rather than to investigate troubles and compose dissensions).

4. To co-ordinate the schools of the Woman's Board with the evangelical efforts of the Church by keeping in close touch with the various synods, presbyteries and committees interested.

5. To assemble the present unrelated units of our work into a co-ordinate whole both for the pedagogical and social viewpoint.

6. To vise all reports from schools and stations and all requisitions in excess of pro rata allowance.

7. To make monthly reports to the Superintendent of Schools.

8. The Field Supts. to attend an annual Conference in New York to assist in the preparation of the Annual Budget and to plan the campaign for the new fiscal year, this Conference to be held in March.

9. To recommend candidates both for original appointment and reappointment.

10. To audit all school accounts and supervise building operations, negotiate sales, leases and be generally responsible for all property matters.

11.

Advantages.

1. The substitution of actual for nominal supervision.

2. The enactment of a co-ordinated system of school and community work in place of present system of unassembled and unrelated units.

3. The elimination of the main cause of friction between churches and schools and the substitution therefor of a broad, sympathetic, aggressive Christian policy of harmonious endeavor to prpmote the common aim.

4. The establishment of a vital connection between Headquarters and the Field which would keep the Board constantly and reliably informed as to actual conditions and make possible that intelligent planning of campaigns and policies which requires a basis of indisputable and clearly presented facts.

5. Economy of system is unquestionable. Saving in care of property alone would be large. Saving in teachers' traveling expenses would be not inconsiderable. The elimination of the office of Assistant Supt. and a reduction of

the force in School Department would provide salary and office expenses of one Field. Moreover it is doubtful if there would be a large increase in administrative traveling expenses, as half rates would be applicable to these officers and much of traveling done under present system would be obviated.

6. The Supt. of Schools would be relieved of a large amount of detail which cannot be done effectively in the home office , and he would thus be able to devote his time almost exclusively to the consideration of the larger questions of administration and policy which require that careful investigation which is not possible under present system.

The Superintendent should serve as an effective medium through which the field is brought into close touch with the Board, and this would be possible under system of field supervision, but it is wholly impossible under present system."

It was unanimously voted -

First. That this plan as a whole be approved by the Office Conference, with the understanding that changes in details might be deemed advisable on further examination.

Second. That Mr. Allaben should take up the plan with Dr. Thompson, Secretary of the Home Board, stating that this plan is approved by the officers of the Woman's Board including Mrs. Bennett, the President.

HAINES. Annual Requisition and L/McLean, 1/3/12. The question was again brought up as to the advisability of authorizing Mr. McLean to begin the construction of the new launch, for which $1,000 was asked in the Requisition. The need having been recognized by the School Committee at its meeting held Feb. 14, it was voted to include this amount in the budget, with the understanding that the sum is to be secured as a special gift; but as there seemed to be little doubt as to our ability to get this as a special gift, it was the judgment of the Conference that Mr. McLean might go ahead with his arrangements for the construction of the launch.

BANKS CREEK. L/ Finley, 2/11/12, relative continuing work at Banks Creek. It was voted to continue this work on Dr. Finley's recommendation.

ALLISON - JAMES. L/Schaub, 2/10/12, relative superintendent's cottage at Santa Fe. It was voted to recommend to the Woman's Board that $4,000 be appropriated for this purpose in the budget for the new fiscal year.

TIERRA AMARILLA. L/Sass, 2/9/12, relative reopening work. It was the judgment of the Conference that the Woman's Board acted wisely in closing the school work at T.A., and that the consideration of the question of sending a visiting nurse into this section should be deferred.

JEWETT NAVAJO L's/Bratschi, 1/8/12; Boutwell, 1/8/12; Johnston, 1/8/12, relative charges of Miss Lenora Milholland against Miss Rogers. These letters constitute a response to statements of the charges filed by Miss Milholland, former worker at Sitka and the Newett-Navajo Station. In the judgment of the Conference the charges are completely disproved by these letters, and it was voted that a record of this fact should be made on the Minutes coupled with a statement of the strong confidence of the officers both in Miss Rogers' character and administrative ability.

TUCSON. L/Robe, 2/7/12, relative Laird taking the work of Field Matron. It is the judgment of the Conference that no action should be taken in this matter at the present time.

SHELDON JACKSON SCHOOL. L/Bridgham, 2/23/12, relative possible need of medical missionary at Sitka. It was the judgment of the Conference that in case the Government physician should be withdrawn the need would be very pressing, and in that event should be favorably considered.

LOS RANCHOS DE TAOS. L/Hyson, 2/7/12, asking that her neice, Miss Margaret Hyson, be sent. Under the circumstances, and in view of Miss Hyson's long service under the Board, it was voted to approve of this arrangement, provided, of course, that Miss Margaret Hyson's credentials prove satisfactory.

TUCSON. L/Robe, 2/9/12, enclosing statement signed by Misses Laird, Dilley, Wolf and Parker and Mr. Lynn, relative church membership of students in Tucson school. The position as outlined by these teachers was strongly endorsed by the Conference.

[illegible] that until lately also title, the Board of Home Missions feels a sympathy to the part of Church Extension, but for practical purposes, but to comply with the technical requirements of the Board of Church Extension.

It is probably very little the interest of the Board of Home Missions is by far the larger, for not only did they furnish the greater part of the funds required for the erection of the church-school house, but later they built upon the proposition, hence for the workers and missionaries.

With the suggestion that we aggregate the interests of the two Boards, relinquishing any claim we might have on account of our larger financial interest in the church-school house (the third item, the money furnished by the Board of Church Extension until retaining as our interest the larger proportion built entirely with money furnished by the Board of Home Missions, they did not accept either. Apparently they are concerned with the technicalities only, and are not inclined to consider the equities.

Such a position, it held by them, must work a hardship injustice to the Board of Home Missions, that a complete case; Smith, Idaho.

Into the church school house at this point, the Board of Church Extension put $[illegible], and the Board of Home Missions $[illegible], and later the Board of Home Missions put several [illegible] into a basement here. We are here to offer the Board which will reimburse us in a small way [illegible] Smith Acceptably put into it, and all of the [illegible] from the church school house, but if we [illegible]

[illegible]

the money involved, the law says of the full amount of the insurance, just the property sold represents all the money received by the Board of Church Erection.

There is also a clause for the sales property but the price offered, $[illegible], with the title here that entitle the Board of Church Erection.

Followed to figure, their contention in this particular case is this: they shall receive from the proceeds of the sale $[illegible], the full amount they originally, this for our investment of nearly $[illegible], we are to receive but $[illegible] less the expenses of the sale. This is but one case; there are some twenty others very similar.

There seems to be one or two facts that Mr. Campbell and Mr. Hamilton have overlooked. If the Board of Church Erection consents to the segregation of the church and the "Home" property, they stand to lose nothing; for in nearly every instance the church work will continue, and under these conditions the Board of Church Erection may never hope for a return of any of the money they put in, as why the begging-the-manager attitude. They should be put be allowed to recover as far as is possible, the money put into the "Home" in which they have no equity, more as they claim it through a technicality.

However, if they are willing to give title and the entire property is sold, they will receive money which they can put into new work where it is needed. If they do not consent, and the property is not sold, their money is tied up indefinitely. It would seem, leaving aside the equities involved, as though

a good figure because although, the work would be extremely [illegible] just supposing for a minute figures available [illegible] figures would look better than the figures [illegible] up in "good faith."

Secondly it cannot be supposed that the Town's Agent will subsidize your in out year out to pay repairs, taxes and insurance on these properties, solely that the good of Church members may take all or practically all, when it comes to the final disposition of the property.

2. To make regular visits to all schools and stations.
3. To exercise constructive supervision(rather than to investigate troubles and compose dissensions.)
4. To co-ordinate the schools of the Woman's Board with the evangelical efforts of the Church by keeping in close touch with the various synods, presbyteries and committees interested.
5. To assemble the present unrelated units of our work into a coherent whole both from the pedagogical and social viewpoint.

He is also expected to make addresses whenever possible, and generally help to develop intelligent interest in the support of the work.

6/5/12.

GENERAL. The following instructions relative construction and alteration of buildings as prepared by Consulting Architect, Mr.D. E. Waid, were adopted:

Instructions to
Missionaries, Teachers or others in the Field
having to do with construction or alteration of Buildings.

-----o-----

WARNING: You are requested to read the following notes with particular care in order to avoid complications which may easily follow apparently harmless and unimportant acts if taken without full information and proper authority, and which sometimes not only cause serious embarrassment but bring about financial loss or litigation.

SECURING PLANS: When a new building is proposed or any construction work is contemplated which involves the preparation of plans, it is important that you should not ask any one to make sketches, or even receive sketches which are offered voluntarily by any architect or contractor, without first securing the authority from the Superintendent of Schools. The mere consideration of sketch plans may place yourself personally or the Board under financial obligations, and too great care cannot be exercised in avoiding such a step.

When there is occasion to make sketches, you should first write to the Superintendent and send your own memoranda of what is desired, together with the names of any architects or contractors whom you would like to have considered or whom you can recommend as being competent to do the work in prospect.

PREPARING PLANS. After the Superintendent of Schools has made arrangements through you or otherwise for the preparation of plans, the regular procedure is, first, that preliminary sketches shall be prepared as requested by the Superintendent, and these sketches will be submitted to you for any criticisms or suggestions which you wish to make. The sketches and such suggestions should then be returned to the Superintendent, and, after they are properly developed, working drawings and specifications will be prepared.

If at any time it appears to you to be desirable to make any changes in the plans or specifications, they may be made only upon the written consent of the Superintendent of Schools.

6/3/12.

GETTING BIDS. When you are requested by the Superintendent or the Consulting Architect in New York to obtain bids , it is important that you shall see that such bids are based strictly on the plans and specifications. If, at the time of taking bids, you see any modifications or additional work which you think should be considered, you may ask the contractor to submit an alternative estimate, but it is important that he shall make his bid first on the plans and specifications strictly as shown, so that bids may be properly compared with each other, and also, so that the difference in cost involved in the change which you propose may be considered.

LETTING CONTRACTS. It is important that the specifications and drawings shall be signed by the contractor, and that the contract shall not be modified in any way by a verbal understanding or even by a written order without the written consent of the Superintendent of Schools or the Consulting Architect.

CHANGES AFTER CONTRACT IS LET. During the progress of construction, no changes or modifications of any kind, however trifling, whether they involve extra expense or not, shall be made without the knowledge and authority of the Superintendent of Schools or the Consulting Architect. In an emergency affecting the safety of life or property, you may approve a modification which you think necessary, but you should either telegraph or write for confirming authority so to do. No modification of any kind, whether it effects the cost or not, shall be made except in writing. This is very important because of possible legal complications and must be strictly observed.

PAYMENTS. Payments to contractors and architects will be made by check issued by the Treasurer, and you must not make or promise to make any direct payment under any circumstances unless authorized so to do either by telegraph or by letter.

At the suggestion of Mr. Waid the following should be added to the list of directions to be followed by representatives of the Board on the field, in connection with building projects;

"No orders or certificates are to be given to contractors except by direction of the Superintendent of Schools."

(Added March 1st, 1913.)

In connection with this plan of Field Supervision of the Mountain Field, beginning July 1st, 1912, the following additional appropriations were recommended:

MENAUL SCHOOL. L/Rio Grande Presbytery, 6/11/12, recommending Mr. Ross for reappointment on the basis of authority written in the Digest, Page 349.

The following letter was presented from Mrs. Bennett, our President:

"On the important matter of the action of Presbytery, I am anxious to go on record, while I recognize the fact that I can add nothing to what will have been said in Joint Conference. I fully recognize the legallity of the act under which the Rio Grande Presbytery has acted, and that, as the Woman's Board of Home Missions is a part of the Board of Home Missions, this is in line with the custom pertaining to appointees. I do not know whether the law of limitations has any part, but custom has allowed the above Act of 1877 to lie dormant for thirty-five years - so far as I know it has never been acted under by any Presbytery. That in itself is a strong argument in favor of the system that has allowed the Woman's Board to build up the large and effective school work now in force.

That the Presbytery of Rio Grande has now searched the Minutes to secure this weapon and has invoked the act to bring pressure upon the Woman's Board - or legally the Board of Home Missions - at a time when a serious question has arisen between the Board and one of the teachers serving it, is in itself proof that insistence by Rio Grande Presbytery and by other Presbyteries - as would surely be the case soon- on the enforcement thereof would destroy the unity of the school work, would make teachers responsible to Presbytery and not to the School Department of the Board and would make impossible an effective administration. This would be especially the case in a school such as Menaul, where a superintendent and a number of teachers work.

"I fully realize the argument that the system works well with missionaries - the work of each missionary is an entity, and is of the same kind and character as that of the men who recommend him. I think it is no discourtesy- I surely do not intend it as such - to say that members of Presbytery are not trained pedagogically and that while they are the best judges of the needs of the church, they may

not be the best judges of the needs of the school work. The Woman's Board has striven to build up a system of secular education as well as of Christian training that will fit boys and girls for usefulness and helpfulness. To do this it must search far and wide for those fitted to do the work and who are willing to go to the sometimes isolated sections: naturally among the four hundred some are not satisfactory and must be replaced. Unless the Board is at liberty to act freely in such cases the efficiency of the school work will be absolutely destroyed. I cannot see how the work can be conducted under this Act; should it be placed in general effect I do not see what the status of our School Department would be except to care for details.

" I am sorry to have to express an opinion before hearing Mr. McAfee's report though in view of the letter of June 11th from the Presbytery this will not be favorable.

"I should like to have the appointment of a Superintendent for Menaul held in abeyance if this is possible, and have the whole matter presented to the Executive Commission - not for a ruling in this one case, but for a general ruling. Let me reiterate that I believe this vital to the efficiency and success of the school work. I believe I am not claiming this that the Woman's Board may have glory but only because I believe the work will suffer materially.

"You are at liberty to use this letter in the discussion. " (written to Miss Fraser 6/15/12.)

It was then moved to make the following recommendations to the Joint Conference:

> "In view of the action of the Rio Grande Presbytery, which has raised a much larger question than the appointment of any superintendent, it was voted to hold the consideration of Mr. Ross's application for appointment as superintendent of Menaul School in abeyance indefinitely, or until some adjustment of the question raised by this action of Presbytery shall have been reached. "

It was then voted that Mrs. Bennett's letter and the following recommendation be submitted to the Joint Conference for approval:

> "The Office Conference recommends to the Executive Committee of the Woman's Board the adoption of the following action:
>
> Referring to the action of the Presbytery of Rio Grande, New Mexico, under date of June 11th, 1912, recommending Mr. Ross for reappointment, the Executive Commit-

tee of the Woman's Board makes response as follows:

"The Woman's Board welcomes for consideration any suggestions or proposals that may come from any Presbytery on matters pertaining to its work, but it deplores the submission of this action on the basis indicated, primarily for two reasons:

First: Because it believes that the principle involved is subversive of efficient school administration, in that its exercise would deprive the Board, which, under the direction of the General Assembly, is responsible for the successful conduct of the schools, of a prerogative which is absolutely essential to the effective discharge of the responsibilities conferred, namely the exclusive authority to select and appoint the teachers required.

Second: Because it believes that the loss of this prerogative, a prerogative which, according to our records, has never before been challenged in the history of the Woman's Board, would materially diminish the interest of its constituency in its work, on which interest the Woman's Board must rely for its necessary funds.

The Executive Committee therefore respectfully requests the Board of Home Missions to state to the Presbytery of Rio Grande, on its behalf, that the Woman's Board would be pleased if the Presbytery of Rio Grande would consider this action, and submit its recommendations on the basis of its general interest in the work of the Woman's Board, omitting all reference to the authority cited, which authority, in the judgment of the Committee, is not only obsolete, but wholly inapplicable to existing conditions. Secretary.

RESOLUTIONS AS TO WORK AMONG FOREIGNERS.

To be considered at the Board Meeting, Nov. 12, 1912.

I. In Self-Supporting Synods.

(a) Funds to be expended for work among immigrant populations shall be sent through the Treasury of the Woman's Board and shall be returned at once to the appointed authorities; but shall be acknowledged and recorded as a separate fund and shall be so reported at the close of the fiscal year.

(b) This work shall not be budgeted by the Woman's Board, and shall not have any claim on the funds of said Board.

(c) The workers shall not be commissioned by the Board, and shall not have any claim on the funds of said Board.

II. In Synods Not Self-Supporting.

Work not undertaken by the Woman's Board directly, but through local invitation, shall be conducted on the same basis as in self-supporting Synods.

III. Work Directly Under Board.

But as the work needed among these immigrant populations has phases that can scarcely be met locally, or even synodically, the Woman's Board feels that it may also act as direct agent in some forms of service. The need as it presents itself to the Woman's Board is threefold.

(a) The training of mission workers, either American or foreigners, for work among the immigrants in this country.

(b) The establishment at large ports of entry and in great industrial localities, of such large and forceful centers of activity as shall not be conducted locally, the con-

trol of such being vested in the Woman's Board and the support therefor coming from its general constituency.

(c) The entrance into smaller foreign settlements, not in self-supporting Synods, where there is no local agency to carry on work and where permission to so enter shall have been given by Presbytery with the assurance that the Woman's Board may conduct the work on its regular lines.

(d) The funds for this work shall be secured as are all other funds for the work of the Woman's Board, from organizations, individuals, legacies, etc., by the usual method.

(e) The workers shall be commissioned by the Board and they and their work shall be under the direction and supervision of the School Department of the Woman's Board.

(f) For this work specifically under its care the Woman's Board agrees to expend annually in accordance with the agreement of April, 1908, a sum equal to 5% of the total receipts for current work from women's auxiliaries, this sum to be in addition to any amounts transmitted under Resolutions 1 and 11, based on a total in which those are not included.

PLAN AND SCOPE OF WORK AMONG IMMIGRANT POPULATIONS.

I. All work among immigrant populations done by the organizations auxiliary to the Woman's Board and by the Woman's Board itself shall be of a distinctly Christian character, in which the spiritual training shall be emphasized; the definite and constant aim shall be that of bringing these people to Christ, and, that they may be helped and strengthened in their daily living, of bringing them into close touch with a local Presbyterian Church.
